

Client Portal guide (for clients)

NEDS gives you a secure portal to view your invoices and projects, raise support tickets, and stay updated on the work we're doing for you. This guide is for **clients** — you can share it with them.

Getting access

1. NEDS sends you an **invitation email** with a link to set your password.
2. Click the link, choose a password, and you're in.
3. After that, log in any time at **<https://crm.niranjanenterprises.co.in/portal/login>** with your email and password.

Finding your way around

The portal has a **left sidebar** (on desktop) or a **hamburger menu** (on mobile) with five sections:

Section	What's there
Dashboard	Your account summary at a glance — open invoices, active projects, open tickets
Services	All your active services and the team member responsible for each one
Quotations	Proposals and estimates NEDS has sent you
Invoices	All your invoices with status and PDF download
Projects	Status and updates for work NEDS is doing for you
Tickets	Your support requests and their conversation history

Your name and company appear at the bottom of the sidebar. Click **Sign out** when done.

Dashboard

When you log in you'll see a personalised greeting and three stat cards showing your open invoices, active projects, and open tickets. Click any card to go straight to that section.

If NEDS has an announcement for you — a holiday notice, a service update — it appears as a 📢 banner above the stat cards. Click the ✕ to dismiss it; it'll disappear on its own once its posted end date passes anyway.

Ask about your account — type a question like "When's my next payment due?" or "What's the status of my SEO project?" and get an instant answer based on your own account details. It only knows what's already in your portal (invoices, tickets, projects) — for anything else, it'll point you to raise a ticket or contact your account manager. There's a daily limit on how

many questions you can ask; if you hit it, use **Raise a ticket** instead.

Services

Open **Services** to see every service NEDS is running for your account in one place:

- **Active Services** — each project/service with its current status and the name and email of the team member handling it. Click **View updates** → to jump to that project's update page.
- **Retainer Services** — any recurring monthly services (SEO, GMB, social media, etc.) with billing frequency and account manager.

If you have a question about a specific service, use the **Raise a ticket** link at the bottom of the page — it keeps everything tracked in one place.

Quotations

Open **Quotations** to see every proposal or estimate NEDS has sent you. Each entry shows the quotation number, date, status (Draft / Sent / Accepted / Rejected), validity date, and total amount. This section gives you a record of all agreed-upon scope and pricing before invoices are raised.

Invoices

All your invoices are listed with:

- **Invoice number** and issue date
- **Status** — Sent, Partially Paid, Paid, Overdue
- **Total** and **Balance** remaining
- **Download** — click to get a PDF copy for your records

Click an invoice number to see the full breakdown of line items and payments.

Upcoming Billing Schedule: below the invoice list you'll see a table of your active recurring services (monthly retainers, quarterly, or annual contracts) showing the service name, billing frequency, and the date your next invoice will be generated. You'll also receive an email reminder from NEDS a week before each billing date.

Projects

Open **Projects** to see every project NEDS is running for you. Each card shows the service type and the name of the team member managing it.

Click a project to see:

- **Status** (Active, On Hold, Completed) and service type
- **Service started** — the date this service began (and its end date, if it has one)
- **Plan** — whether you're on a Monthly, Quarterly, or Yearly billing cycle for this service (shown when it's on a recurring plan)

- **Your NEDS Team** — the team member(s) handling this specific service, with their email address so you can contact them directly. The **Lead** is your primary point of contact for that service.
- **Updates from Our Team** — progress notes posted by the NEDS team as work moves forward. New updates appear here automatically; you don't need to ask.
- **What We Need From You** — a checklist of items the NEDS team needs from you to keep the project moving (e.g. your logo, brand content, GST details, domain/hosting access). Each item shows its status — **Pending**, **Submitted** (you've uploaded something and the team is reviewing it), or **Received** (confirmed). Upload a file directly against any item that isn't yet Received; no need to email it separately.

If you have a question about a project, use the **Raise a ticket** link on the project page — it keeps everything tracked in one place.

Scheduling a call: if your project has a **Schedule a Meeting** link on its page, click it to open your team member's Google Calendar booking page in a new tab — pick a time that works for you and it creates a Google Meet invitation automatically. This link only appears once your account manager has set one up.

Raising a support ticket

1. Go to **Tickets** → **New Ticket** (or click the "Raise a ticket" link anywhere in the portal).

1. Enter a **subject** and describe your issue clearly.
2. If you have **more than one active service** with NEDS, a ***"Which service is this about?"** dropdown will appear — select the relevant project/service so your ticket goes straight to the right team member. If you're not sure, leave it as "General / Not sure".

1. Optionally **attach files** — documents (DOC/DOCX), PDFs, images (JPG/PNG), screenshots, spreadsheets, or a ZIP — up to 5 files, 10 MB each. This lets the support team see exactly what you're seeing without asking you to email or WhatsApp the file separately.

1. Choose a **priority** and click **Submit Ticket** — the NEDS team is notified and an SLA timer starts.

1. Any files you attached appear as download links at the top of the ticket page, so you can confirm what was submitted.

1. You can **reply** to the ticket from the ticket page to continue the conversation. Replies appear as a chat thread.

1. Internal NEDS notes are never shown to you — you only see messages meant for you.

2. Once your ticket is marked **Resolved** or **Closed**, you'll see a ***"How did we do?"** prompt on the ticket page — rate it 1–5 stars and optionally leave a comment. It's a one-time rating per ticket and entirely optional.

Your NEDS Tools

If your account has access to other NEDS platforms (such as **Drishti** for service reports and audits, or **Social Media Dost** for your content), you will see a **"Your NEDS Tools"** section on your Dashboard.

- Click **"Open Drishti Dashboard"** to open your audit reports, SEO tracking, and analytics — you will be signed in automatically, no separate password needed.
- Click **"Open Social Media Dost"** to view and approve your social media content — again, signed in automatically.

These links sign you in for 10 minutes. If you click a button and see a sign-in error, simply return to the portal and click it again to get a fresh link. If the section does not appear, it means your account has not yet been linked to those tools — contact your NEDS account manager.

WhatsApp support

If your account has WhatsApp support enabled, you'll see a **Chat on WhatsApp** button on the Dashboard and Tickets pages. Use it for urgent queries — WhatsApp messages are handled by the same support team and can be faster than a ticket. A new WhatsApp conversation automatically creates a support ticket in our system so nothing falls through the cracks.

Security & privacy

- You can only ever see **your own company's** information.
- Use a strong password and don't share your login.
- **Forgot your password?** Click **Forgot your password?** on the sign-in page, enter your email, and a reset link will be sent to your inbox. Click the link and choose a new password — you'll be signed in automatically.
- If you need portal access for another person at your company, or if you no longer have access to your email address, contact your NEDS account manager.
