

Client Portal guide (for clients)

NEDS gives you a secure, read-only portal to view your invoices and projects and to raise support tickets. This guide is for **clients** — you can share it with them.

Getting access

1. NEDS sends you an **invitation email** with a link to set your password.
2. Click the link, choose a password, and you're in.
3. After that, log in any time at **<https://crm.talktonitesh.com/portal/login>** with your email and password.

What you can see

- **Invoices** — all your invoices, with the amount, status (paid / partially paid / overdue), and a **PDF download** for your records.
- **Projects** — the status of work NEDS is doing for you.

Everything is **read-only** — the portal shows your information; it doesn't let you change NEDS's records.

Raising a support ticket

1. Go to **Tickets** → **New ticket**.
 2. Enter a **subject**, choose a **priority**, and describe the issue.
 3. Submit — the NEDS team is notified and an SLA timer starts.
 4. You'll get **email updates** when the team replies, and you can **reply** from the ticket page to keep the conversation going.
1. Internal NEDS notes are never shown to you — you only see messages meant for you.

Security & privacy

- You can only ever see **your own company's** information.
- Use a strong password and don't share your login.
- If you forget your password or need access for another person at your company, contact your NEDS account manager.
